honor 8 Pro

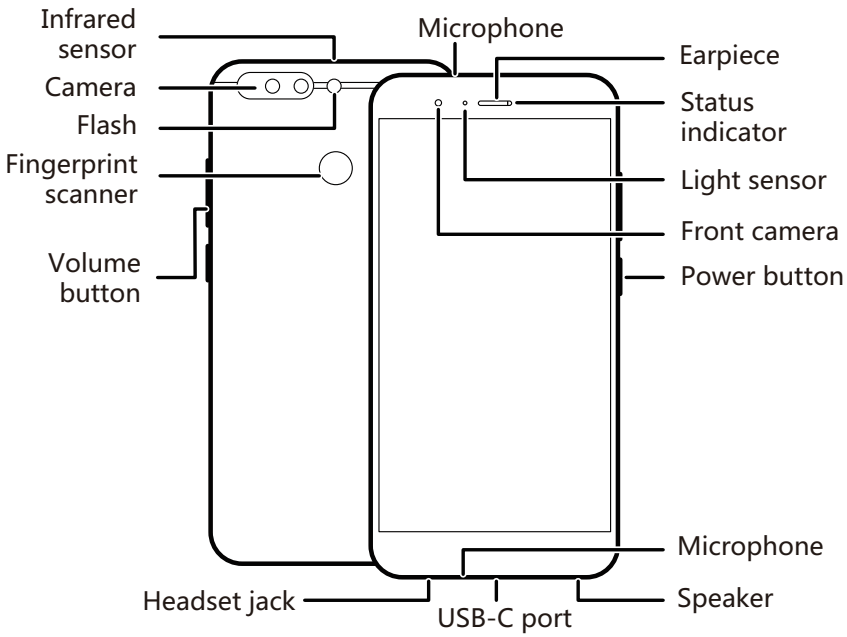
Quick Start Guide

honor

Your device at a glance

Thank you for choosing a **Honor 8 Pro** smartphone.
Before you start, let's take a look at your new device.

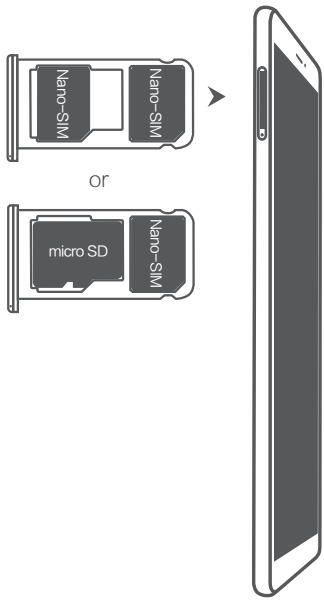
- To power on your device, press and hold the power button until your device vibrates and the screen turns on.
- To power off your device, press and hold the power button, and then touch ⏻.



- To force your device to restart, press and hold the power button until your device vibrates.

Inserting and removing cards

Follow the instructions in the following figures to set up your device.



- Do not insert or remove the card tray when your device is powered on.
- Ensure that the card is correctly aligned and that the card tray is level when you insert it into your device.

Be careful not to scratch your device or hurt yourself when using the SIM eject pin. Store the SIM eject pin out of the reach of children to prevent accidental swallowing or injury.

Do not use cut or modified SIM or microSD cards with your device as these may not be recognized and could damage the card tray.

Dual card dual standby single pass

Your phone supports only dual card dual standby single pass, which means you cannot use both SIM cards for calls or data services simultaneously.

- When you are on a call using SIM card 1, SIM card 2 cannot be used to make or answer calls. If someone calls SIM card 2, the caller will hear a voice message similar to "The subscriber you dialed is out of the service area" or "The subscriber you dialed cannot be connected for the moment, please try again later." The actual message will vary by service provider.
- When you are using SIM card 1's data service, SIM card 2's data service will be disabled.

Your phone's single pass feature helps reduce power consumption and increase your phone's standby time. It is not related to your service provider's network conditions.
It may be a good idea to contact your service provider and subscribe to missed call reminder and related assistance services to avoid the conflicts mentioned above.

For more information

If you encounter any problems while using your phone, you can obtain help from the following resources:
Log on to the official Huawei website. You can:

- Visit http://hihonor.com/ to download user guides.
- Visit http://consumer.huawei.com/en/support/hotline for the most up-to-date contact information for your country or region.

Go to **Settings** and touch **About phone** > **Legal information** to view legal information for your product.

Go to **Settings** and touch **About phone** > **Legal information** > **Safety information** to view safety information for your product.

Go to **Settings** and touch **About phone** > **Authentication info** to view regulatory information for your product.

All pictures and illustrations in this guide, including but not limited to the phone color, size, and display content, are for your reference only. The actual product may vary. Nothing in this guide constitutes a warranty of any kind, express or implied.

Safety Information

Please read all of the safety information carefully before using your device to ensure its safe and proper operation and to learn how to dispose of your device properly.

Operation and safety

- To prevent possible hearing damage, do not listen at high volume levels for long periods.
- Using an unapproved or incompatible power adapter, charger, or battery may damage your device, shorten its lifespan, or cause a fire, explosion, or other hazards.
- Ideal operating temperatures are 0°C to 35 °C. Ideal storage temperatures are -20 °C to +45 °C.
- Pacemaker manufacturers recommend that a minimum distance of 15 cm be maintained between a device and a pacemaker to prevent potential interference with the pacemaker. If using a pacemaker, hold the device on the side opposite the pacemaker and do not carry the device in your front pocket.
- Keep the device and the battery away from excessive heat and direct sunlight. Do not place them on or in heating devices, such as microwave ovens, stoves, or radiators.
- Observe local laws and regulations while using the device. To reduce the risk of accidents, do not use your wireless device while driving.
- While flying in an aircraft or immediately before boarding, only use your device according to instructions provided. Use of a wireless device in an aircraft may disrupt wireless networks, present a hazard to aircraft operation, or be illegal.

- To prevent damage to your device's parts or internal circuits, do not use it in dusty, smoky, damp, or dirty environments or near magnetic fields.
- When charging the device, make sure the power adapter is plugged into a socket near the devices and is easily accessible.
- Unplug the charger from electrical outlets and the device when not in use.
- Do not use, store or transport the device where flammables or explosives are stored (in a gas station, oil depot, or chemical plant, for example). Using your device in these environments increases the risk of explosion or fire.
- Dispose of this device, the battery, and accessories according to local regulations. They should not be disposed of in normal household waste. Improper battery use may lead to fire, explosion, or other hazards.

Disposal and recycling information

The crossed-out wheeled-bin symbol on your product, battery, literature or packaging reminds you that all electronic products and batteries must be taken to separate waste collection points at the end of their working lives; they must not be disposed of in the normal waste stream with household garbage. It is the responsibility of the user to dispose of the equipment using a designated collection point or service for separate recycling of waste electrical and electronic equipment (WEEE) and batteries according to local laws.
Proper collection and recycling of your equipment helps ensure electrical and electronic equipment (EEE) waste is recycled in a manner that conserves valuable materials and protects human health and the environment, improper handling, accidental

breakage, damage, and/or improper recycling at the end of its life may be harmful for health and environment. For more information about where and how to drop off your EEE waste, please contact your local authorities, retailer or household waste disposal service or visit the website http://consumer.huawei.com/en/.

Reduction of hazardous substances

This device and any electrical accessories are compliant with local applicable rules on the restriction of the use of certain hazardous substances in electrical and electronic equipment, such as EU REACH, RoHS and Batteries (where included) regulations, etc. For declarations of conformity about REACH and RoHS, please visit our web site http://consumer.huawei.com/certification.

ErP Product Information

Hereby, Huawei Technologies Co., Ltd. declares that the product meets the directive 2009/125/EC and its implementation regulation (EC) NO 1275/2008 amended by (EC) 278/2009,(EC) 642/2009,(EU) 617/2013,(EU) 801/2013,and its implementation regulation (EC) NO 278/2009.
The power consumption of product in networked standby if all wired network ports are connected and all wireless network ports are activated is 1.2 W.
For the product information displayed on the manufacturers' freely accessible websites required by (EU) No 801/2013, please visit http://consumer.huawei.com/certification.

EU regulatory conformance

Body worn operation

The device complies with RF specifications when used near your ear or at a distance of 0.5 cm from your body. Ensure that the device accessories, such as a device case and device holster, are not composed of metal components. Keep the device away from your body to meet the distance requirement.
The highest SAR value reported for this device type when tested at the ear is 1.28 W/kg, and when properly worn on the body is 1.27 W/kg.

Statement

Hereby, Huawei Technologies Co., Ltd. declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU.

The most recent and valid version of the DoC (Declaration of Confirmation) can be viewed at

http://consumer.huawei.com/certification.

This device may be operated in all member states of the EU. Observe national and local regulations where the device is used. This device may be restricted for use, depending on the local network.

Restrictions in the 2.4 GHz band:

Norway: This subsection does not apply for the geographical area within a radius of 20 km from the centre of Ny-Ålesund.

Restrictions in the 5 GHz band:

According to Article 10 (10) of Directive 2014/53/EU, the packaging shows that this radio equipment will be subject to some restrictions when placed on the market in Belgium (BE), Bulgaria (BG), the Czech Republic (CZ), Denmark (DK), Germany (DE), Estonia (EE), Ireland (IE), Greece (EL), Spain (ES), France (FR), Croatia (HR), Italy (IT), Cyprus (CY), Latvia (LV), Lithuania (LT), Luxembourg (LU), Hungary (HU), Malta (MT), Netherlands (NL), Austria (AT), Poland (PL), Portugal (PT), Romania (RO), Slovenia (SI), Slovakia (SK), Finland (FI), Sweden (SE), the United Kingdom (UK), Turkey (TR), Norway (NO), Switzerland (CH), Iceland (IS), and Liechtenstein (LI).

The WLAN function for this device is restricted to indoor use only when operating in the 5150 to 5350 MHz frequency range.

Frequency Bands and Power

(a) Frequency bands in which the radio equipment operates: Some bands may not be available in all countries or all areas. Please contact the local carrier for more details.

(b) Maximum radio-frequency power transmitted in the frequency bands in which the radio equipment operates: The maximum power for all bands is less than the highest limit value specified in the related Harmonized Standard.

The frequency bands and transmitting power (radiated and/or conducted) nominal limits applicable to this radio equipment are as follows: GSM 900: 37 dBm, GSM 1800: 34 dBm, WCDMA

900/2100: 25.7 dBm, LTE Band 1/3/7/8/20/38/40: 25.7 dBm, Wi-Fi 2.4G: 20 dBm, Bluetooth: 20 dBm,Wi-Fi 5G: 5150-5350 MHz: 23 dBm, 5470-5725 MHz: 30dBm, NFC: 60 dBuA/m at 10m.

Accessories and Software Information

Some accessories are optional in certain countries or regions. Optional accessories can be purchased from a licensed vendor as required. The following accessories are recommended:

Adapters: HW-059200XHQ (X represents the different plug types used, which can be either C, U, J, E, B, A, I, R, Z or K, depending on your region)
Batteries: HB376994ECW
Earphones: 1311-3291, MEMD1632B580C00, EMC309-001, NA12
The product software version is DUK-L09C900B122. Software updates will be released by the manufacturer to fix bugs or enhance functions after the product has been released. All software versions released by the manufacturer have been verified and are still compliant with the related rules.
All RF parameters (for example, frequency range and output power) are not accessible to the user, and cannot be changed by the user.
For the most recent information about accessories and software, please see the DoC (Declaration of Confirmation) at http://consumer.huawei.com/certification.
